Modern, Luxury and Performance

Signed by yacht designer Samer LASTA, the Aventura 44 offers a very modern style with its streamlined and comfortable roof. Easily maneuverable, stable, safe, comfortable and roomy with luxury amenities are the most important qualities. All at an unbeatable reasonable price.

The interior is beautiful, with a very bright owner's cabin, plenty of storage space and even an office. The spacious and ergonomic saloon design incorporates the features and colors that made the success of Aventura Catamarans. Available in 3 or 4 cabins with 2, 3 or 4 bathrooms.

Elegance and confort

Behind the sliding doors is the large and safe cockpit with a table and plenty comfortable seating. Each hull has an integrated bathing platform with easy access to the water.

At the forward end of the catamaran we find large trampolines and deck space for relaxation and enjoyment. The sails are handled from the helmsman's seat to the left side of the cockpit. From there is good visibility for maneuvers and handling the catamaran.

With its streamlined hull and standard high-end equipment, the Aventura 44 does not neglect performance for long-distance sailing.
